## Michigan Department of Community Health Immunization Requirements

**Attention Parent/Guardian of School Entrants**  
 (Kindergarten and Entrants New to Port Huron Schools grades 1 – 12)

**To Enter School:** State law prohibits a principal or representative from admitting new entrants to school without a record of having received **at least one dose of each:** Measles, Mumps, Rubella, Diphtheria, Meningococcal (age 11 or upon entry to 7<sup>th</sup> grade), Polio, Tetanus, Pertussis, Hepatitis B and Varicella (chickenpox vaccination or documentation of immunity). If the student has had the chickenpox disease, you will need to document on the shot record and provide a parent signature on this form below that would verify this.

If your student has one dose of each shot that is listed above, but is still incomplete with the rest of the doses, then the following paragraph applies:

According to Act 368 of the Public Acts of 1978, State of Michigan, I understand that my child is being allowed to attend school on a temporary basis for four months (4) from the date of this certificate because immunization records/immunizations are incomplete.

I understand that in order to remain in school after the four month temporary basis, my child must have received or be in the process of receiving the required vaccines.

Student Name: \_\_\_\_\_

Parent Signature \_\_\_\_\_ Date: \_\_\_\_\_

Parent Printed Name: \_\_\_\_\_

Age	4 years through 6 years	7 years through 18 years including all 7th grade students
Vaccine**		
Diphtheria, Tetanus, Pertussis	4 doses DTP or DTaP, one dose must be on or after 4 years of age	4 doses Diphtheria and Tetanus OR 3 doses if #1 given on or after the first birthday. 1 dose of Tdap for children 11 years of age or older upon entry into 7th grade or higher.
Polio	4 doses of polio. Only 3 doses of polio are required if dose 3 is administered on or after the fourth birthday.	4 doses of polio. Only 3 doses of polio are required if dose 3 is administered on or after the fourth birthday.
Measles,* Mumps,* Rubella*	2 doses on or after 12 months of age	
Hepatitis B*	3 doses	
Meningococcal Conjugate	None	1 dose for all children 11 years of age or older upon entry into 7th grade or higher
Varicella* (Chickenpox)	2 doses of varicella vaccine at or after 12 months of age OR current lab immunity OR reliable history of disease	

We will **advocate** for our students and families in partnership with our community to assure their success inside and outside of school; continuously **innovate** our practices and programs to improve student achievement; and **educate** in ways that are relevant, relationship driven, and rigorous.
